

Turn Markers

Into Energy!

May 2019

Dear Parents,

I'm excited to tell you about a very special program starting at our school in conjunction with Crayola. It's called Crayola ColorCycle – an amazing program devised to repurpose used markers rather than sending them to landfills!

The ColorCycle program has repurposed more than 70 tons of expended markers in the United States and Canada since 2013, and uses the most advanced plastic conversion technologies available today to make wax compounds for asphalt and roofing shingles as well as to generate electricity that can be used to heat homes, cook food, and power vehicles.

All around Brookvale, students and teachers will be collecting used markers that are ready to be discarded. Please help support our efforts by sending your kids in with any used markers you may have around the house – even non-Crayola brands! Highlighters, dry erase, and permanent markers can also be included. Have your child deliver the markers directly to the teacher.

Thank you in advance for participating! With the help of parents like you across the country, the Crayola ColorCycle program can continue to keep tons of plastic out of landfills each year.

Remember, don't throw out that used marker—*ColorCycle it!*

Sincerely,

Brookvale ColorCycle Coordinator
